Designed, Manufactured and Supported by
SP Diagnostics in the UK

VAG Service Reset, Fiat Service Reset, Volvo Service Reset,
VAG Electronic Park Brake, Mercedes Sensotronic Brake Control

Our range of low cost easy to use service tools, allows you to perform service light reset, oil reset and electronic park brake functions depending on the service tool selected. The tools offer additional functions such as Airbag warning light reset on VAG, and indications of CAN faults on fault tolerant systems. Save time and money! Using the tools functions complete within seconds, unlike waiting for complex and bulky diagnostic equipment to start up.
